
Fully-functional companion PC with 10.1-inch diagonal LED display and Intel® Atom™ processor

Windows®. Life without Walls™. HP recommends Windows.

HP Mini 5101

Minimize the size and maximize your mobility with the stylish HP Mini 5101, HP's premier full-function business companion PC.

Business with style
With a 10.1-inch diagonal LED-backlit display, a starting weight of only 2.64 lb /1.2 kg with a brushed aluminum finish, the HP Mini 5101 is anything but bland. And the durable all-metal case, with a magnesium base, helps protect your notebook from the rigors of work on the go.

Type, don't text
HP Mini's generous keyboard produces the typing experience the way email [1] and IM [1] were intended. The 95% full-size keyboard, plus a touchpad, offer full-sized notebook familiarity in contrast to smaller keyboards of some competing companion PCs.

Enjoy wireless in more places
The HP Mini 5101 helps you connect in more places by offering optional Wi-Fi Certified WLAN [2, 3] and optional WWAN [3, 4]. Receive and send emails, conduct online research and instant message in more places.

Go light or go longer
The HP Mini 5101 offers two battery solutions for lightweight configurations or for longer computing. Choose either the 4-cell battery for lighter weight or 6-cell battery for longer battery life [3, 5].

Stop squinting
Choose from two available displays - a 10.1-inch diagonal LED-backlit WSVGA display (1024x600 resolution) or 10.1-inch diagonal LED-backlit 16:9 HD [6] display (1366x768 resolution) and see your screen with crystal clarity.

HP Professional Innovations
Built to simplify. HP Fast Charge enables you to recharge your primary battery up to 90% in 90 minutes [7].
Built to last. HP 3D DriveGuard helps protect your notebook's hard drive against impact, bumps or drops using a three-axis accelerometer which detects sudden movement and initiates protective action.
Built to protect. Permanently destroy data on your hard drive in preparation for your system disposal/redeployment with HP Disk Sanitizer [8]. Once executed, data cannot be easily recovered even with advanced data recovery tools.

HP Mini 5101

Windows®. Life without Walls™. HP recommends Windows.

Operating system	Genuine Windows XP Home SuSE Linux Enterprise 11 FreeDOS (May vary by country)
Processor	Intel® Atom™ Processor N280 (1.66 GHz, 667 MHz FSB, 512 KB L2 cache)
